CAUTIONS

- This device complies with Part 15 of the FCC Rules and RSS 210 of Industry & Science Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Only operate the device in accordance with the instructions supplied. This device complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC and IC radio frequency exposure limits, human proximity to the antenna shall not be less than 20cm (8 inches) during normal operation.
- Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

DECLARATION OF CONFORMITY

Hereby, we declare that this AC is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. The declaration of conformity may be consulted with sales agent.

SPECIFICATION

Model: OSK102
Standard: IEEE 802.11b/g/n
Antenna Type: Wxternal omnidirectional Antenna
Frequency: WIFI 2.4G
Maximum Transmitted Power: 15dBm Max
Dimension: 2.165*0.944*0.3149(in) / 55*24*8(mm)
Operation Temperature: 32°F~113°F / 0°C~45°C
Operation Humidity: 10%~85%
Power Input: DC 5V/300mA

OPERATION INSTRUCTION

1. Install App (Android & IOS)

- 1) iPhone Users: scan QR Code or go to App Store and search for MRCOOL REMOTE app and download it.
- 2) Android Phone users: scan QR Code or go to Google Play, search for MRCOOL REMOTE app and download it.

2. Set Air conditioner to be AP mode (Android & IOS)

The procedure includes the following steps:

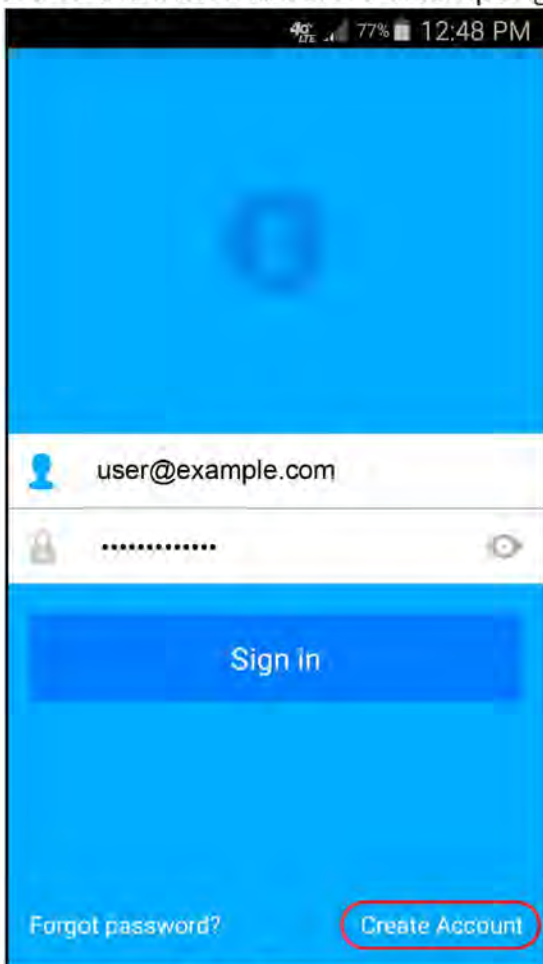

- 1) Disconnect the power to the unit.
- 2) Reconnect the power to the unit, and press the digital display button or do not disturb button seven times within 3 minutes.
- 3) When the unit displays AP, this indicates that the unit has entered into Wi-Fi Network Setting Mode.

NOTE:

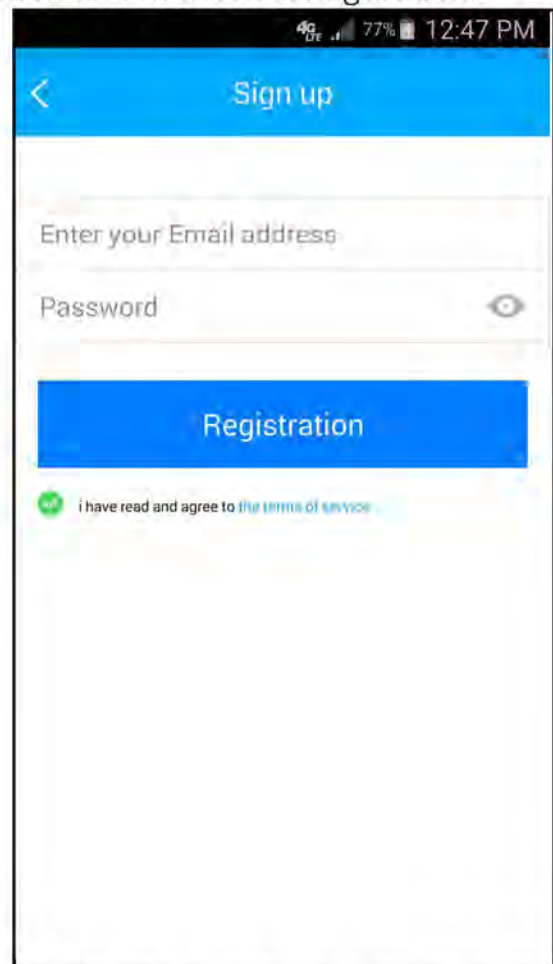

- When the unit has entered into Wi-Fi Network Setting Mode, the remote control can not operate the normal functions of the unit for 3-5 minutes or when the unit finishes the WIFI Network Setting Mode.
- If the unit does not detect any activity from the remote while in WIFI Network Setting Mode the unit will automatically end this mode 8 minutes later, and then the user can control the unit normally.

3. User Registration and Network Configuration (Android & IOS)

Please ensure your smart phone or device is connected to your Wi-Fi router. Also, ensure the Wi-Fi router is connected to the internet before attempting user registration and network configuration.

Step 1: Click "Create Account"

Step 2: Click Enter your email address and password, then click "Registration"
